WOMAN PLANNED TO DIE.

Ella Hicks Took Poison, but the Doctors Revived Her.

Ella Hicks, who is about twenty-nine years old, and who lives in a boarding house at No. 24 North East street, attempted suicide last night by taking morphine. Drs. Bretz and Thompson, of the City Dispensary, were called and at a late to-day, attending a meeting of the Colum-

hour reported that she would recover. A love affair is supposed to have been the cause of the woman's act. A note was found in her room which she had evidently written after taking the poison. The note was intended for some one whom she referred to as "Johnny." The note announced that the writer had taken poison and requested "Johnny" to be a good boy. He was asked to tell the woman's mother what she had done and to ask the mother to take care of the unfortunate daughter's children. The woman did not explain to the doctors why she took the poison. When Dr. Bretz reached the house about 8:30 o'elock he found the suffering woman alone in an upstairs room. There was no one

DIFFERENTIAL QUESTION

SERIOUS AGITATION FOR ABOLITION OF RATES OF THAT SORT.

Report of Receiver Malott, of the Vandalia-Lines West of the Missouri Quickening Their Speed.

More trouble is brewing over the passen-

ger differentials. In speaking of this yesterday a local passenger man said: "The abolition of the present differential plan and the adoption of a rule for common time, common fare, may some day occur to the Eastern magnates. The most fairminded railway officials agree that the theory of common time, common fare, as suggested by O. W. Ruggles, general passenger agent of the Michigan Central, is founded in equity, and its adoption would end the pernicious effects of the differential system now in vogue." In accordance with the rule as to minimum speed and excess fare the Pennsylvania and Lake Shore roads have charged an extra fare of \$4 on their limited trains, which run between Chicago and New York in twenty-four nours. It is not likely that they will allow the Wabash and the Lackawanna to charge \$18 for practically similar service. Under the rules the fare on such train would be \$21, or \$3 more than the regular differential fare. It is contended by the standard lines that a road or combination of roads which can run a train regularly between

The Alton Aggressive. It is generally understood that as soon as the new bridge is completed over the Missouri river at Glasgow the Chicago & Alton will inaugurate a twelve-hour service between St. Louis and Kansas City. The local official of the road, A. D. Perry, would neither confirm nor deny the story yesterday, but said it was too early to say what would be done. The company is spending a great deal of money in bettering its roadbed between the river and Kansas City. New rails are being laid, grades are being reduced and curves straightened. The new bridge, which will be a fine single-track steel structure, will be completed by August, and by that time the roadbed and equipment will be equal to any west of the river. Conditions will therefore be favorable for a reduced time schedule. Such action on the part of the road would undoubtedly lead to a speed war and possibly to more serious results. Several years ago the Kansas City lines, after having considerable trouble, got together and made a fourteen-hour limit between the two cities, and since then no train has made the run under that time.

roads, but with shippers. The tonnage of the Carnegie Steel Company in raw material and finished product was 16,000,000 tons last year. This is the statement of Vice President J. T. Odell, of the Pittsburg, Bessemer & Lake Erie, in discussing affairs of that road. He says of this tremendous tonnage that it "is as great as the combined tonnage of the Northern Pacific, the Union Pacific and the Missouri Pacific railways, embracing, as they do, more than 13,000 miles of track and running probably 1,500 locomotives and 50,000 freight cars."

The chief event of the card was the free handicap at a mile and fifty yards, in which Bangle, John Bright, Batten, Salvarse and Arthur Behan tried conclusions. The race proved to be one of the prettiest of the meeting. Batten set out to make the pace, and kept in front till the half was reached. Here he was joined by Bangle, who soon forged to the front, John Bright running easily in fourth place close up. They reached the head of the stretch, going like steam engines, and the mile was Bangle, though they kept gamely at it. In the stretch Winkfield, with a well-timed rush, brought John Bright to the front and won by a length and a half in 1:421/2, which equals the world's record for the distance, which was established by Floronzo in Chicago on July 6, 1898. John Bright's performance to-day was much more creditable because he carried 122 pounds, while Flo-

ronzo had up only 93 pounds. Terre Haute Events Closed.

TERRE HAUTE, Ind., May 15 .- Seven of the early closing events were closed by the Terre Haute Trotting Association to-night. The races are to be run at the September meeting and are as follows:

IN THE SECOND. Kansas City did not score in the second, and in the Indianapolis half opportunities were offered to get a man around the circuit, but they could not be taken advantage of. Powers made a safe hit and was sacrificed to second by Flynn. Heydon beat out a bunt, and when Hickey was passed to first the bases were filled. Sanders and Stewart both flew out. A threebase hit and fly-out gave the visitors one in the third, and the Hoosiers went one in the lead by scoring a trio of runs. Hartsel singled, but was forced at second by Magoon. Seybold drew a pass and Powers's two-base hit scored both men. Flynn scored Powers with a double to right. Kansas City tied in the fourth on Coughlin's single and Schaefer's three-bagger. NATIONAL L. A. W. MEET. Oscar H. Morris, of Milwankee, Here

Working Up Interest. Oscar H. Morris, of Milwaukee, a member of the press committee for the National L. A. W. meet, to be held in that city, July 10 to 15, arrived in Indianapolis yesterday afternoon. His mission is to boom the gath-Kansas City made things uneasy in their ering, which, from present prospects, will be a large one, assurances having been secured from large delegations from all Eastern cities, and the central States will also be well represented.

> "There is no doubt that the meet will be a success," said Mr. Morris, last night. "Plans have been made to entertain the visitors royally and we hope to have a much larger crowd than Indianapolis had two years ago or Boston last year. The executive committee, of which A. D. Meiselbach is chairman, has leased the expo tion building, and all the races will be held

Association, has promised a programme which will include several championships, principally the one, two and five-mile

Mr. Morris said that if present plans do not fail the representatives of the inter-national races at Paris will be decided upon during the Milwaukee meet. Nearly every fast rider in the country has promised to participate and some good sport is ex-pected. The riders will all be in first-class condition by that time and will be able to give the public many exciting races. The exposition building, where the races will be held, has a nine-lap track, which is prob ably the fastest indoor course in the country. In addition to the regular events, arrangements are now being made for match race between Zimmerman and Sanger. This would be a great drawing card. as Milwaukee is Sanger's home. Another big card will be Jimmy Michael, who will probably enter in the championship events. One of the most exciting races of the week will be given out doors, on upper Grand avenue, in which the Orient "ten," five sextets and numerous quints and quads will be entered. The course is straight-away, and on a gradual slope. The distance wil be one mile and it is expected the time will be close to one minute. Regarding the entertainment, Mr. Morris says the visiting wheelmen will be given the freedom of the city, which has already been extended to them by Mayor Rose.

Much Interest in the Annual High

School Field Day Events. The annual State High School field day will be held at Newby Oval Saturday, May 26, when the athletes from seven Indiana cities will contest for the silver trophy cup, emblematic of the interscholastic cham pionship of the State. The cup was wor last year by the Manual Training High School of this city and the representatives of that school will try hard to retain it this year, but they will meet with strong opposition from the Indianapolis High School. Representatives from other cities will also tug hard for the laurels. Richmond will not be represented this season. as that city made a poor showing last year. Muncie and Lebanon are looked upon as the strongest teams outside of Indianapolis. The entry list has closed. The events are as follows: One mile, one-quarter and one-half-mile bicycle races; running broad jump, standing broad jump, running high Buffalo 0 0 0 1 0 1 0 0 0-2 6 4 jump, hop, step and jump, one mile run, Milwaukee . . 1 0 1 1 2 0 1 0 0-6 10 1 440-yard dash, 220-yard dash, 100-yard dash, Batteries-Hooker and Schreckengost; 120-yard hurdle, pole vault, shot put and hammer throws.

Jumped 24 Feet 8 1-2 Inches.

PHILADELPHIA, Pa., May 15 .- All records in the broad jump have been broken by Kraenzlein, of the University of Pennsylvania track team. He cleared yesterday in practice 24 feet 81/2 inches. The jump cannot stand as a record, as it was not made in a contest. The world's record is now held by Prinstein, of Syracuse University, who cleared 24 feet 71/4 inches at the relay races on Franklin field here April 28, last, beating Kraenzlein's previous world's record of 24 feet 41/2 inches, made May 26, 1899, on Manhattan field, New

Powers is a good first baseman besides

being a good catcher. His work at first in

the last two days has been excellent.

Sanders said after the game yesterday that he felt a trifle awkward while in the box, as he has had but little practice in the box this season. Manager Ray, of the Elwood team, has leased grounds, which will be fitted up at once as a ball park. He has signed Pitcher

Captain Madison is missed when out of the game. He is suffering from a slight at-tack of malarial fever and his physician ordered him to take a few days' rest. This is ladies' day. The game will be called at 4 o'clock to-day in order to allow the people who desire to see the parade time in which to reach the grounds.

With a crippled team Indianapolis beat Kansas City. What will the Hoosiers do when the men are all in condition? It is the general opinion that they will be in a class far above the rest. Stewart was a little slow at second yesterday, it being the first time he has been in a championship game this season. He made a few good assists, but was a little late in starting after fly balls.

There seems to be no excuse for the manner in which Sheridan asserts his authority over Hogriever. If the umpire has a personal grievance against the player the ball field is no place to "get even." Seybold took a day dream in the eighth inning yesterday when Magoon was on secand and he was on first. He was caught napping and the ball was thrown to first. oon started for third and was put out

Hart, of the Chicago National League Ball Club, has addressed a circular letter to the presidents of the National League clubs requesting that President Young be asked to select enough ditional umpires to permit a return to the double-umpire system in vogue last season. Heretofore President Hart has been the only League magnate standing in opposition to the double-umpire system.
